

CustomReactionEventBaseTest
::GetReactionCount

test_main

```
graph LR; test_main --> CustomReactionEventBaseTest::GetReactionCount
```

The diagram illustrates a function call. A box on the right labeled 'test_main' has a blue arrow pointing to a larger box on the left. The left box contains the text 'CustomReactionEventBaseTest' on the top line and '::GetReactionCount' on the bottom line. The left box has a light gray background, while the right box is white.
