

B::HandleException

A diagram showing a call to the B::HandleException function. A grey rectangular box on the left contains the text 'B::HandleException'. A blue arrow points from this box to a larger white rectangular box on the right. The white box contains a C++ code snippet.

```
boost::statechart::  
simple_state< B, A,  
    mpl::list< sc::shallow  
_history< J >, sc::deep  
_history< N > >, sc::has  
_full_history >::triggering_event
```
